

## ARTICLE 9 INDUSTRIAL

### Sec. 29.900. INDUSTRIAL BASE ZONES.

(1) **Purpose.** The industrial base zones established by this Ordinance are General Industrial (GI) Zone and Planned Industrial (PI) Zone. Each of these zones is intended to reserve appropriately located areas for predominantly industrial uses and to protect these areas from intrusion by dwellings and other inharmonious uses. The zones are intended to promote the economic viability of the City's industrial areas and to provide standards to assure safe, functional, efficient and environmentally sound industrial areas and to provide standards to assure safe, functional, efficient and environmentally sound operations. Differentiation between the zones is intended to provide appropriate areas for industrial uses of different character, intensity or impact while minimizing potential conflicts among land users.

(2) **Use Regulations.** Use regulations for the Industrial Base Zones are set forth on the Use Tables as follows: GI Zone, Table 29.901(2), and PI Zone, Table 29.902(2).

### Sec. 29.901. "GI" GENERAL INDUSTRIAL ZONE.

(1) **Purpose.** This Zone is intended to provide a limited development review procedure, involving only developer- and staff-coordinated efforts to satisfy the planning and permitting requirements. This District applies to those areas where there is a need to provide a desirable industrial environment and to promote economic viability of a type generally not appropriate for or compatible with retail sales areas. A site plan review process is required in order to assure such development and intensity of use in a way that assures safe, functional, efficient and environmentally sound operations.

(2) **Permitted Uses.** The uses permitted in the GI Zone are set forth in Table 29.901(2) below:

**Table 29.901(2)

DEVELOPMENT STANDARD	GI
Minimum Lot Area	No limit
Minimum Frontage	25 ft.
Minimum Building Setbacks Front Lot Line	10 ft.; 40 ft. if abutting an arterial street, except for a fuel pump canopy, which shall maintain a 10 ft. setback from an arterial street, measured from the front edge of the canopy
Side and Rear Lot Lines	12 ft.; 40 ft. if abutting an arterial street except for a fuel pump canopy, which shall maintain a
Lot line abutting a Residentially Zoned Lot	10 ft. setback from an arterial street, measured from the front edge of the canopy 20 ft.
Landscaping in Setbacks Abutting a Residentially-Zoned Lot	10 ft. minimum with Industrial screen and wall. See Section 29.403
Maximum Building Coverage	85%
Minimum Landscaped Area	15%
Maximum Height	100 ft. or 9 stories
Parking Allowed Between Building and Streets	Yes

*(Ord. No. 3970, 10-28-08; Ord. No. 4312, 6-27-16)*

**(4) Site Development Plan Requirements.**

(a) In addition to Minor or Major Site Development Plan submittals, a Use Analysis Report shall be prepared by the applicant that shows the following:

- (i) approximate number of employees;
- (ii) approximate utility needs and effect upon existing systems, e.g., projected water demand (Gallons Per Minute or Gallons Per Day), waste water generation (Gallons per Day + Chemical Oxygen Demand or Biochemical Oxygen Demand) electricity demand (Kilowatts), storm water increase (Cubic Feet Per Second), solid waste generation (tons); and...

*(Ord. No. 3591, 10-10-00; Ord. No. 3893, 10-5-06)*

- (iii) possible nuisance factors and means for alleviating those factors, such as noise, odor, smoke, dust, or fumes, vibration, heat.

(b) No Site Development Plan approval will be issued for any use in the GI District if the determination is made by the approving authority exercising independent judgment, that there is reason to believe that the proposed use or structure, as presented by the application, will create a nuisance in terms of diminished air quality, smoke, noise, toxic matter, odor, vibration, glare, sewage waste, water quality, street system capacity, heat or other condition detrimental to the public health and safety or reasonable use, enjoyment and value of other properties; or diminish the quality or quantity of any utility service presently provided by the City. Furthermore, no approval or permit shall be issued unless there is compliance with all other applicable City, state and federal regulations.

**(5) GI Outdoor Storage.**

(a) Within the GI zoning district, outdoor storage is permitted so long as it complies with the minimum setbacks, as required in Sec. 29.405.

(b) The Zoning Board of Adjustment may grant exceptions to minimum side and rear setbacks for GI outdoor storage if the following conditions are met:

- (i) The subject property line abuts another industrial zoning district,
- (ii) Adequate buffering, screening, or setbacks are provided if deemed necessary due to the surroundings,
- (iii) The exception is in conformity with the intent and purpose of the zoning ordinance and the general plan of the community,
- (iv) The exception does not alter the applicant's obligation to comply with other applicable laws or regulations, and
- (v) That a reduction of side or rear setbacks will not impair or infringe upon the use of neighboring property or be detrimental to the public health, safety, or general welfare.

*(Ord. No. 4532, 06-25-24)*

**Sec. 29.902. "PI" PLANNED INDUSTRIAL ZONE.**

(1) **Purpose.** This District is intended to be applied to those areas where there is a need to provide a desirable industrial environment. It is also intended to:

- (a) Accommodate large-scale industrial land uses;
- (b) Promote a clustered and integrated development in a park-like setting; and
- (c) Locate such development near limited-access highways, air transportation or the Research Park.

(2) **Permitted Uses.** The uses permitted in the PI Zone are set forth in Table 29.902(2) below:

(4) **Site Development Plan Requirements.**

(a) In addition to Minor or Major Site Development Plan submittals, a Use Analysis Report shall be prepared by the applicant that shows the following:

(i) Approximate number of employees;  
 (ii) Approximate utility needs and effect upon existing systems, e.g., projected water demand (Gallons Per Minute or Gallons Per Day), waste water generation (Gallons Per Day + Chemical oxygen Demand or Biochemical oxygen Demand), electricity demand (Kilowatts), storm water increase (Cubic Feet Per Second), solid waste generation (tons); and

(Ord. No. 3591, 10-10-00)

(iii) Possible nuisance factors and means for alleviating those factors, such as noise, odor, smoke, dust, or fumes, vibration, heat.

(b) No Site Development Plan approval will be issued for any use in the PI District if the determination is made by the approving authority exercising independent judgment, that there is reason to believe that the proposed use or structure, as presented by the application, will create a nuisance in terms of diminished air quality, smoke, noise, toxic matter, odor, vibration, glare, sewage waste, water quality, street system capacity, heat or other condition detrimental to the public health and safety or reasonable use, enjoyment and value of other properties; or diminish the quality or quantity of any utility service presently provided by the City. Furthermore, no approval or permit shall be issued unless there is compliance with all other applicable City, state and federal regulations.

**Sec. 29.903. “RI” RESEARCH PARK INNOVATION DISTRICT**

*(Ord. No. 4427, 12-22-20)*

(1) **Purpose.** This District supports development of an integrated commercial service and concentrated employment area to:

- (a) Allow for mixing of use and interaction of people to foster a collaborative environment;
- (b) Create a node of activity, including commercial services and limited mixed-use

residential development, for the district;

*(Ord. No. 4536, 06-25-24)*

(c) Design development to promote the new innovation district by integrating multi-modal transportation facilities, intensification of land use, and a wide range of office and research uses; and

(d) Promote a high level of architectural and site design features that signify the commitment to innovation and investment through architecture with visual interest and unique identity, site design incorporating stewardship of natural resources, district layout and development supporting the pedestrian environment, and green building techniques demonstrating the commitment to sustainability.

(2) **Permitted Uses.** The RI Zoning District is to be established by the City Council through the requirements of 29.1507. Hub Activity Area uses may only be allowed for properties that are consistent with a City Council approved master plan accompanying a rezoning request. A Hub Activity Area means an area of concentrated commercial uses providing support services intended primarily to provide service and retail uses supportive of the surrounding businesses and their employees. Limited mixed-use residential may be permitted in a Hub Activity Area with City County approval.

*(Ord. No. 4536, 06-25-24)*

The uses permitted in the RI Zone are set forth in Table 29.903(2) below:

(4) **Site Development Plan Requirements.**

(a) In addition to Site Development Plan submittals, a Use Analysis Report shall be prepared by the applicant that shows the following:

- (i) Approximate number of employees;
- (ii) Approximate utility needs and effect upon existing systems, e.g., projected water demand (Gallons Per Minute or Gallons Per Day), waste water generation (Gallons Per Day + Chemical oxygen Demand or Biochemical oxygen Demand), electricity demand (Kilowatts), storm water increase (Cubic Feet Per Second), solid waste generation (tons);
- (iii) Possible nuisance factors and means for alleviating those factors, such as noise, odor, smoke, dust, fumes, vibration, or heat; and

(iv) Uses with a substantial inventory of hazardous materials, as regulated by the Ames Fire Department, shall be sited away from residential uses across University Boulevard.

(b) No Site Development Plan approval will be issued for any use in the RI District if the determination is made by the approving authority exercising independent judgment, that there is reason to believe that the proposed use or structure, as presented by the application, will create a nuisance in terms of diminished air quality, smoke, noise, toxic matter, odor, vibration, glare, sewage waste, water quality, street system capacity, heat or other condition detrimental to the public health and safety or reasonable use, enjoyment and value of other properties; or diminish the quality or quantity of any utility service presently provided by the City. Furthermore, no approval or permit shall be issued unless there is compliance with all other applicable City, state, and federal regulations.

(5) **Design Guidelines**

(a) The goal is to create a development that acknowledges its natural surroundings, develops a human scale, and provides innovative contemporary architectural designs which harmonize with the environment, express individuality and promote worker health, wellness and productivity. Site Plan approvals must be found to conform to site development standards and the design guidelines. Design guidelines are to be applied with discretion by the Planning and Housing Director to promote consistency with the intent of the District and to adapt to individual site needs.

(b) **Site Design Guidelines**

(i) Use site design to locate buildings and site improvement in manner that is supportive of the pedestrian environment.

(ii) Coordinate building and parking in manner that is supportive of a transition to trails and pedestrian areas.

(iii) Extend walkways to both public streets and trail system.

(iv) Coordinate shared access points for lots to reduce driveway intersections along bike and pedestrian facilities.

(vi) Locate support areas such as mechanical areas, storage areas, and accessory structures away from pedestrian areas and behind the principal building.

*(Ord. No. 4536, 06-25-24)*

(vii) Multi-building sites within a Hub Activity Area shall emphasize building orientation to the street or to a publicly accessible open space.

*(Ord. No. 4536, 06-24-24)*

(c) **Landscape Design Guidelines**

(i) Use landscape design to support sustainable site features, such as stormwater treatment and parking lot shading.

(ii) Locate landscape areas in a manner which is complementary to adjacent Master Plan-designated Public Spaces in types of vegetation and planting.

*(Ord. No. 4536, 06-24-24)*

(iii) Incorporate vegetation that provides for screening of storage and equipment areas from trails and streets.

(iv) Use landscape design to enhance pedestrian environments with shading of sidewalks and creating visual interest with art, trellis, gathering spaces, and interesting vegetation.

(d) **Architectural Design Guidelines**

(i) Identify and accentuate main building entrances with architectural elements or projections.

(ii) Utilize high levels of glazing to identify areas of activity and interest for customers, employees, and public. Prefer location of office and other active uses at street sides of buildings to provide support for building identity and interest.

(iii) Building massing should distinguish building components through variations in height, building relief, and exterior materials.

(iv) These architectural design guidelines are not mandatory for accessory structures.  
*(Ord. 4223; 8-11-2015; Ord. No. 4349, 5-8-18)*

(v) Mixed-Use Development shall emphasize commercial space configurations and features over residential development features. This includes features such as first-floor 12-foot minimum floor to

ceiling heights, commercial depths, and tenant spaces suitable for a broad range of uses, space for outdoor patios, and high levels of glazing.

(Ord. No. 4536, 06-24-24)

**Sec. 29.904. "II" INTENSIVE INDUSTRIAL ZONE.**

(1) **Purpose.** The Intensive Industrial Zone is designed to accommodate large and varied industrial business development in the area east of Interstate 35. The standards of this zone are intended to provide for an environment that permits large scale industrial development upon large tracts of land adjacent to highways and rail lines. A site plan review process is required in order to assure such development and intensity of use occurs in a way that assures safe, functional, efficient and environmentally sound operations.

(2) **Permitted Uses.** The uses permitted in the II Zone are set forth in Table 29.904(1) below:
